

AfterTax

Know what to pay!

AfterTax Home Screen

What it is?

- Lets you know how much to pay after applicable taxes when you go for dinner, buy clothes, groceries, drugs etc.
- It takes care of tipping calculation and user can set tipping percentage.
- Keeps tax rates updated through server syncing.
- AfterTax is scalable to integrate Income tax and Service tax calculations.

Difference!

- There is no such app which exists in market which serves the purpose of calculation sales tax on products - reason being vast tax rates.
- User need not care of tax rates in the region he/she lives - AfterTax does that.
- Easiest way to get the amount to be paid just by entering he price.
- Beautiful UI and compatible with all size devices and latest OS.

Are you always purchasing without knowing the final amount?

AfterTax - an app first of its kind! AfterTax is made to simplify your tax problems. It is not a tax calculator in which you enter tax percentages and get results. AfterTax does all for you! You just need to enter the price before tax. As we know there are three main taxes - Income, Service and Sales. We have solved the computations of sales tax - tax on stuff you buy. This app helps you to know the exact amount you need to pay after taxes when you buy Clothes, Groceries, Medicine, any Consumer Products or go for a Dinner etc. We are trying hard to make values more accurate each day.
